Smarter Skills Start Here: Discover What's New in Digital Skills Training

We are excited to announce that Florida Ready to Work, powered by WIN Learning, has released an update to Digital Skills Training that includes several enhancements to improve the learner experience. Each module now begins with an introductory video to welcome learners and give them a preview of the skills they are about to learn. The courseware also features additional interactive content to keep learners engaged throughout each module, and an introduction to artificial intelligence (AI) and its uses in the workplace.

In addition to improved instructional content, the training also features a refreshed layout and menu to allow learners to more easily navigate the modules.

More information about these exciting enhancements can be found in our [System Release Update](#). If you have additional questions, please contact customerservice@floridareadytowork.com.

A Powerful Tool for SNAP E&T Participants' Success

Florida Ready to Work continues to support SNAP E&T and Welfare Transition participants in building essential skills and preparing for long-term employment. In March, CareerSource Northeast Florida and CareerSource South Florida shared real-world examples of how they're using the program to meet training requirements and help job seekers thrive. We also explored how Florida Ready to Work can fulfill key SNAP E&T and WT activity categories like 'Job Search Training' and 'Education.' Missed the conversation? Watch the March webinar [here](#).

Florida Ready to Work Webinars

Join us for our monthly implementation partner trainings. These sessions are designed for individuals interested in learning more about the Florida Ready to Work program and how to effectively use it with job seekers. It is also ideal for those looking to promote the program to employer partners. The webinar is held monthly on the last Wednesday of each month. Our next session is **Wednesday, June 25 at 11 a.m.** Register [here](#).
