APPRENTICESHIP ACCELERATOR

AEROSPACE | MANUFACTURING | ENGINEERING

Registered Apprenticeship Programs (RAP) serve as a model to strengthen your workforce pipeline.

This Apprenticeship Accelerator session is specifically designed to address the challenges facing the aerospace, manufacturing, and engineering industries and provide tailored options and resources to move your business through the RAP process smoothly, from beginning to end.

You'll also hear from employers who have integrated this model into their workforce culture and learn how you can retain a highly productive workforce while offering career seekers affordable paths to high-paying jobs.

Thursday, December 8, 2022

8 a.m. – 1 p.m.

Pensacola State College

1000 College Blvd, Pensacola, FL 32504
